

Profile: 033
Main field of expertise: Project Consultant
Business branch: Services

Fields of expertise

Conception: planning, analysis, specification
Deployment: process consulting, training
General: project management, documentation

Abstract

10 years of experience with the conception, introduction and operation of CAD and PDM solutions in industrial environments. Has led engineering design teams. Strong background in engineering design methodologies, especially part classification, strategies of variety reduction, and process engineering.

Skill profile

Hardware	PC, Unix workstations (SGI)
Operating systems	Unix (Irix), NT
Programming languages	C
PDM systems	Metaphase, MetaKON
Other applications	ObjectD, SolidWorks, SAP R/2, MS Project, VISIO, Lotus Notes, Interleaf, QuarkExpress, Plossys
Other skills	Controlling, standardization, technical writing, patent management, engineering design, procurement and logistics, process analysis
Foreign languages	English (extendable) Spanish (basic)

Graduation: Degree Polytechnical
Year of birth: 1963
Nationality: German (male)
